

Concept Note : NBI App

Background

NBI plans to acquire the contractual service of a firm/entities/agency for helping out to develop app for Learning Management System. This app will provide convenient mechanism to facilitate quality access to the learning system. This app could be a good learning tool to increase the sense of self-confidence and pride in the abilities of the participants. Therefore, NBI invites Expression of Interest (EOI) from qualified and experienced application developer.

Objectives

- To ease up participants accessibility and facilitate learning.
- To cover mass target audience
- To increase engagement of our target audience
- To increase efficiency of our clients through learning interventions
- To help clients receive instant notification

Scope of Work

NBI seeks to engage competent entities to develop NBI app to be used with a smart phone or laptops. The entities are required to;

- ideate, design, develop, deploy and maintain the application.
- detailed scope will be subject to change as per the app requirement.
- may also be asked to redevelop, enhance and modify apps.

The entities will provide their best application to be reviewed by NBI. A review panel at NBI will review the application based on its usability and functionality.
