■ The salient features of the e-library

- The learner (individual subscriber) will have 1 full year access to 548 courses of 60 different programs.
- With the one time fee, users have plethora of choices as to which e-learning courses to choose & gain knowledge from, to get self acquainted with the best international practices on the topics concerned.
- Learners have great flexibility to randomly choose any course as per the learner's preference from the "Menu" section.
- Like in other LMS platforms, progress reports of all can be tracked individually for each course.

- Upon successfully completing the course/s, by scoring 70 marks or above in the tests that appear towards the end of each course, printable e-certificates get generated.
- The state of art user friendly e-platform.
- Special emphasis has been given, with a professional touch, in crafting the delightful and engaging learning modality for the very best outcome.
- All the course contents have been developed by the experienced experts, considering the international best practices of banking and finance, without any customization on regulatory aspects.
- Explicit treasure of knowledge at an inexpensive investment.
