Program Details

Program Delivery Method

This professional development training course will be delivered in-class instruction by academic and expert practitioners from the faculty on School of Management, Asian Institute of Technology.

The classroom sessions are going to be delivered by expert professionals on the specific topic with case studies & extensive discussion with participatory mode. This course curriculum provides a highly interactive professional development experience to enhance knowledge and skills in the principles, tools, and techniques of effective banking and financial development and management. Its overarching learning objective is to “turn theory into practice,” and give participants the understanding and ability to discuss, present, and develop their ideas and help them to transform such ideas into their real successful organization’s development.

This professional development course will use a variety of training methods, combining interactive lectures with a balance of participatory learning techniques such as small group discussion, role play, brainstorming, demonstration, individual and/or group investigation, project work, case studies, reporting and hands-on practices. The course methodology will also be very much forward-looking to ensure successful implementation in the long-term and rewarding learning experiences.

About AIT

AIT

Asian Institute of Technology

The Asian Institute of Technology (AIT) is an independent, international institute of higher education established by Royal Charter in the Kingdom of Thailand, with a mandate for “developing highly qualified and committed professionals who can play a leading role in the sustainable development of their countries and the region, accelerating its integration into the global economy”.

Founded in 1959 as the SEATO Graduate School of Engineering, the Institute’s 30,000 alumni are a who’s who of success stories in the public and private sectors, as well as academia, in more than half the world’s countries. It partners with notable public and private sector entities throughout the Asian region and with some of the world’s top universities and international organizations. AIT operates an affiliated center in Vietnam. AIT has become a leading regional postgraduate institution and is actively working with public and private sector partners throughout the region and with some of the top universities in the world.
