

SECURED LAND COLLATERAL

Background:

Property - Land and building is one of the prime collaterals considered by Banks and Financial Institutions. It is generally a challenge to understand cadastral map (the Blue Print) for the bankers. It is important for the bank staff- Relationship Managers, credit underwriters, documentation and loan processing staff to have a basic knowledge on interpreting the cadastral map and field verification technique. Possible cases of frauds and mitigation techniques are necessary for them. Idea of using different mobile applications for collateral process of land and building is very useful.
