

PRESENTS

IT SECURITY

Programme Background

Many Operational Risk events are taking place in the industry, which is in increasing trend. The risk event types indicate that it is happening on account of inadequate systemic infrastructure, unskilled human resource depending on a few IT personals and inadequate knowledge and skills on IT of the senior officials who supervise IT personals.

NBI has therefore, taken many initiatives to enable the banking industry to address these issues. This course has been designed to enhance the IT related knowledge and skills of the staffs of the branches who work as Branch Manager, Operation Manager and staffs of Customer Service, Cash, Remittance, Cards, e-Banking / Mobile Banking etc to mitigate the IT risks.
